
Hall and Kay Fire Services Ltd Hall and Kay Fire Engineering

Quality Policy Statement

Hall and Kay Fire Engineering is committed to achieving the highest level of quality to retain and grow its customer base and reputation and all our work must be undertaken ethically, safely and with consideration for the environment.

Our reputation relies on our ability to deliver complete fire solutions and satisfy the most exacting design, production and installation demands and industry standards, including all statutory and regulatory requirements.

We recognise that improvements in process and compliance, will help ensure the sustainability of our organisation, as will the maintenance of our organisational knowledge.

We are committed to continually improving our Quality Management System through the effective co-operation, collaboration and feedback from all interested parties. This will ensure we:

- Deliver projects and service on time and to budget
- Provide reliable products and systems
- Provide full lifecycle support and expertise

Companywide Quality Objectives that support this policy have been established for each of the business areas. These are reviewed together with the Quality Policy by the senior management team on an annual basis, as a minimum and communicated to all.

Kerry Solomon – Managing Director
